

## KONHA Ltd. Quality and Environmental Policy

KONHA d.o.o., a company for provision of non-destructive testing services, development, design and production of non-destructive testing equipment and systems, is committed to consistently satisfy our customers requirements and expectations, taking into account the impact of our activities, products and services on the environment.

In order to achieve these goals, we have established and implemented an integrated quality and environmental system in accordance with the international standards ISO 9001: 2015 and ISO 14001: 2015.

In our daily work, we follow the following principles:

- We supply products and services in accordance with customer requirements and applicable regulations and standards;
- We do our best that our design solutions are fully original and that in every detail, surpasses solutions of our competitors;
- We create and maintain partner relationships with customers, taking into account their needs and expectations;
- We create and maintain partner relationships with suppliers;
- We follow the development of applicable technologies and introduce them in accordance with our own capabilities and customers' needs;
- We care about the natural environment by preventing pollution and controlling other environmental impacts;
- We identify and consistently fulfil the compliance obligations arising from applicable legal requirements and other requirements we have accepted, relating to our environmental aspects;

### **Company motto**

“We choose to develop this company and beat competition, not because it is easy, but because it is hard; because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one we intend to win.”

KONHA Ltd. CEO
